

I currently listen to the Glenwood Springs K-LOVE station. This station provides one of the only Christian music and programs in our mountain area. As the only station offering this type of programming for the entire community, if K-LOVE were to be displaced by a LPFM broadcaster providing other programming, it would deprive our community of its only Christian programming. K-LOVE provides some of the only programming that is safe for children to listen to (i.e., family friendly programming), provides support to our community by allowing the communication of local Christian activities, communicates Christian concert information, provides pastoral support to its listeners etc. It is so necessary in this current time. PLEASE do not let it get displaced. God Bless.
